

## A SEAMAN'S CLUB

Very Quietly a Snug Harbor Has Been Provided.

Plans and Games: Billiard Table  
Ordered—Designed as Sailors' Social Hall.

A Seaman's Club, which has for years been the cherished project of many city people interested in the welfare of the men who come here in ships, is now assured. It has already been opened. The quarters are in the second story of the Brenig building, at the corner of Nuuanu and Queen streets. There is a large room and it has already been quite extensively furnished. Besides a piano, several other musical instruments have been provided. There are cards, dominoes, checkers and chess and other games. It was impossible to secure a billiard table in town, but one has been ordered from the coast. Writing material has been placed at the disposal of all who may wish to use it. There will be the daily newspapers and much other reading matter. In the place will be a stand, owned by Geo. Cavasough, for the sale of cigars and tobacco and soft drinks. There is a bath free to all. C. E. Smith will be in charge of the place. Funds have been provided by a number of gentlemen who guarantee the fullest support of the project for six months. If it is given any reasonable amount of patronage it will be continued indefinitely. If the experiment may be counted a complete success, there are men who stand ready to endow it quite liberally.

The club is for the merchant sailors especially. Its whole and sole purpose is to keep them out of saloons, or rather it might be said to afford a lounging and resting place for the sailors who do not wish to go to saloons but who loaf in no other place. This is the card which is being distributed on the merchant ships:

**SEAMAN'S CLUB**—For the use of Seamen only. Piano, Billiards, Games, Writing Materials, Newspapers, Soft Drinks, Cigars and Tobacco.

All welcome. Bring your friends and have a good time.

## FOR UNCLE SAM.

Two 300-ton Scows Being built for Use Here.

The Oahu Railway & Land Co. is at present engaged in the construction of two large scows for the United States Government. They are nearly completed and will probably be launched next week. It has not been fully decided yet as to who will have the honor of christening these scows, and whether or not champagne will be spilled over their sides.

The contract was given a few weeks ago and the way that the Railway Company happened to get it was this: Some time ago J. A. Hughes, foreman of the car shops of the railroad, built a couple of scows for the use of the company. When Consul Haywood saw these he decided that they were just the thing wanted for coaling United States ships. As a result he placed a contract in the hands of the railroad people.

The scows are to be larger than anything in the line hitherto built here. They will be 75 feet long and 38 feet wide. They will be sheathed entirely with copper, and the cost of each is considerable. They will be used for carrying coal and each will have a capacity of over 300 tons.

That they were badly needed by the United States Government was shown by the length of time it took to coal the Oregon when here, all on account of lack of proper facilities. The new scows will be towed by the United States tug Iroquois.

## A BARN BURNED.

Firemen Called to Colburn Place, Kinohiwa Street.

An alarm of fire was sounded yesterday afternoon at 2:45. When the firemen arrived on the scene, the barn of John Colburn was in flames. The firemen devoted their attention to saving adjacent buildings and in this they were entirely successful.

It is not known how the fire originated. When one of the inmates of the house stepped outside it was seen that the building was on fire. It is said that the barn was worth about \$1,000, but besides this there was \$100 of feed and \$300 in harness. It was insured for \$500.
